
PRESS RELEASE

MNM'S 'BRAHIM ZKT. COLLEAGUES' HIGHLIGHTS WORKING AT MPET, PSA AND ATS

Yesterday, 7 May, the Flemish radio station MNM broadcasted live from the MPET terminal with their morning show 'Brahim zkt. colleagues' (Brahim searches for colleagues). By participating in this unique programme, MPET, PSA Antwerp and ATS aim to promote employment opportunities.

Johan Van Daele, CEO at MPET shares his enthusiasm: *"Our main goal is to highlight our companies to a wide audience. We want to draw attention to the various career opportunities."*

Cameron Thorpe adds: "Our terminals are bustling centres of activity with a wide variety of functions. So I am delighted to put our company in the spotlight. And when that is accompanied by good music on one of the most popular radio stations, we can only welcome that."

Brahim spoke not only to Johan Vandewalle, general manager at ATS Technical Services, but also to four ATS employees. All emphasised why working within our organisation is an absolute added value.

A job in the port offers a fantastic challenge for several reasons. "You end up in a dynamic environment. Moreover, there is a wide variety of positions available. At PSA, MPET and ATS, you can see first-hand the technological advances in the port industry while enjoying job security," Thorpe and Van Daele clarify.

A very wide range of vacancies can be found at **www.grootgrotergroots.be**.
