

ePortal

Rail

provides the possibility to

- create and request Rail orders (disharge and loading)
- request expected discharge and loading reports (LCT919 en LCT930)

 \rightarrow via application RAIL – Rail Calls

Rail	~
Rail Calls	
Upload Status	

View loading or discharge:

- \circ select the correct rail visit an click on the discharge icon \mathbb{Z} or loading icon \mathbb{Z} .
- The discharge or load overview will open.

Select terminal

In (discharge) Out (load)

carrier (rail) voyage

Action: create or delete

Reference: generate a random reference via ePortal or to fill in your own reference

You can fill in all fields, or copy the data from an existing file (up to 400 containers at the same time)

- Next click on 'upload'.
- Via 'upload status' you can check if input is processed correctly.
